Ramon G. Duarte, R.N.  
American Hemodialysis Corporation  
161 N. La Brea, Suite 110  
Inglewood, California 90301

Dear Mr. Duarte,

It is our pleasure and privilege to congratulate you on the recent acceptance by the American Society for Artificial Internal Organs of your abstract entitled "In Vivo Membrane Depolarization". Your selection by ASAIO for membership is indeed an honor but the acceptance by that society of your abstract is further tribute to your outstanding work in the field of artificial organs. We are proud to honor your association with the American Hemodialysis Corporation as well as this significant contribution to the dialysis field.

With warmest congratulations.
